Japan's Ministry of Economy, Trade and Industry (METI) and the Japan External Trade Organization (JETRO) are pleased to announce the jointly organized "NET ZERO Leaders Summit (Japan Business Conference 2021)" to accelerate innovation in green investment and realizing carbon neutrality by 2050. The event will take place from Wednesday, July 28, and will be held online.

At the event, 54 Japanese companies with cutting-edge technologies and services, and local governments, will exhibit their technology and pride.

PR booths for exhibitors will be staged at the "Japan Technology Showcase" in a virtual venue. In addition to viewing PR videos and viewing materials, avatars can be used to communicate in real time with corporate and local government representatives. Participants will be able to learn about the latest technologies and ideas from Japan, and to consider the possibilities of collaboration with Japanese companies and business in Japan.

(Japan Technology Showcase)

Please register to interact with companies and local governments.

Prior registration is required to participate and interact with exhibitors.

About the exhibitors

The Japan Technology Showcase divides the virtual venue into five categories: Energy Sector, Manufacturing and Mobility, Digitization, Smart City and Lifestyle, and Other. The showcase introduces the characteristics of the companies and attractive regions of Japan via easy-to-follow presentations.

A total of 54 companies and local governments, including startup companies and "green" companies funded by the University of Tokyo Edge Capital Partners Co., Ltd. (UTEC), will exhibit the pride of Japan's latest technology.
